

CLAIM AMENDMENTS

The following is a complete list of claims. The claims below replace all prior versions of the claims in the application. Please cancel claim 1; amend claims 2 – 5, 7 – 23 and 26; and add claim 27.

- 1 1. (Cancelled)
- 1 2. (Currently Amended) The glove of claim-1 10, wherein each side includes a palmar receptacle.
- 1 3. (Currently Amended) The glove of claim-1 10, wherein the glove conforms to both hands of a wearer, accommodating use on one hand with the first scrubbing texture proximate to the palm side of the wearer's hand and use on the other hand with the second scrubbing texture proximate to the palm side of wearer's other hand.
- 1 4. (Currently Amended) The glove of claim-1 10, wherein the glove is flexible.
- 1 5. (Currently Amended) The glove of claim-1 10, wherein the sides are associated by a mechanical joining.
- 1 6. (Original) The glove of claim 5, wherein the joining includes stitching.
- 1 7. (Currently Amended) The glove of claim-1 10, wherein at least one side includes a flexible sheet material.
- 1 8. (Currently Amended) The glove of claim-1 10, wherein a nap of the material forming at least one side provides at least one scrubbing texture.
- 1 9. (Currently Amended) The glove of claim-1 10, wherein a plurality of loops of a material forming at least one scrubbing texture.
- 1 10. (Currently Amended) A pet washing glove, comprising:
2 a flexible first side having a first scrubbing texture and a flexible second side
3 having a second scrubbing texture that The glove of claim 1, wherein the
4 second scrubbing texture is different than the first scrubbing texture., the

5 sides being associated in a manner providing a sheath for a hand and
6 generally defining a first palm portion on the first side, a second palm
7 portion on the second side, a thumb portion, and at least one finger
8 portion; and

9 a palmar receptacle that receives and retains a washing material, and
10 releases a solution of the washing material.

- 1 11. (Currently Amended) The glove of claim-4 10, wherein at least one side includes
2 stretchability in at least one direction.
- 1 12. (Currently Amended) The glove of claim-4 10, wherein the palmar receptacle
2 includes definition by a material overlaid on an outer surface of the palm portion.
- 1 13. (Currently Amended) The glove of claim-4 10, wherein the palmar receptacle
2 overlies less than the entire palm surface.
- 1 14. (Currently Amended) The glove of claim-4 10, wherein the palmar receptacle
2 overlies a central portion of the palm.
- 1 15. (Currently Amended) The glove of claim-4 10, wherein the palmar receptacle
2 includes a joining about a portion of its marginal edge to a respective palm
3 portion.
- 1 16. (Currently Amended) The glove of claim-4 10, wherein at least a portion of the
2 palmar receptacle is water permeable.
- 1 17. (Currently Amended) The glove of claim-4 10, wherein palmar receptacle is
2 refillable.
- 1 18. (Currently Amended) The glove of claim-4 10, wherein the palmar receptacle
2 includes a configuration that retains at least one of solid, gel, semi-solid, and
3 liquid washing material.
- 1 19. (Currently Amended) The glove of claim-4 10, wherein the palmar receptacle
2 allows water access to the washing material, and releases the washing material
3 from the receptacle when the washing material is wetted.

- 1 | 20. (Currently Amended) The glove of claim-4 10, wherein the palmar receptacle
2 includes a configuration that dispenses the washing material when the glove is
3 rubbed over a wet coat of the pet.
- 1 | 21. (Currently Amended) The glove of claim-4 10, wherein the glove provides a
2 separation distance between a hand in glove and the pet.
- 1 | 22. (Currently Amended) The glove of claim-4 10, wherein the glove allows tactile
2 perception of the pet by a hand in the glove.
- 1 | 23. (Currently Amended) The glove of claim-4 10, wherein when the glove is worn on
2 a hand of the wearer, the first side is proximate to the palm of the hand, and
3 when worn on the other hand of the wearer, the second side is proximate to the
4 palm of the other hand.
- 1 | 24. (Original) A single-use pet washing glove, comprising:
2 a first side having a first scrubbing texture and a second side, the sides being
3 associated in a manner providing a sheath for a hand and generally
4 defining a first palm portion on the first side, a thumb portion, and at least
5 one finger portion; and
6 a washing material impregnated in at least one of the first and second sides,
7 and released therefrom upon wetting.
- 1 | 25. (Original) A pet-washing glove, comprising:
2 a flexible first side having a first scrubbing texture and a flexible second side
3 having a second scrubbing texture, the sides being associated in a
4 manner providing a sheath for a hand and generally defining a first palm
5 portion on the first side, a second palm portion on the second side, a
6 thumb portion, and at least one finger portion; and
7 a washing material impregnated in at least one of the first and second sides,
8 and released therefrom upon wetting.
- 1 | 26. (Currently Amended) A pet-washing glove, comprising:

2 first flexible means including a first scrubbing texture for scrubbing a coat of a
3 pet;

4 second flexible means including a second scrubbing texture that is different
5 than the first scrubbing texture for scrubbing the coat of the pet, the first
6 and second means being joined together in a manner that provides a
7 cover for either hand of a wearer and generally defining a first palm
8 portion on a first side, a second palm portion on a second side, a thumb
9 portion, and at least one finger portion; and

10 means in proximity to at least one palm portion for receiving and retaining a
11 washing material, and releasing a solution of the washing material.

1 27. (New) A pet-washing glove, comprising:

2 a flexible first side having a first scrubbing texture and a flexible second side
3 having a second scrubbing texture that is different than the first scrubbing
4 texture, the sides being associated in a manner providing a sheath for a
5 hand and generally defining a first palm portion on the first side, a second
6 palm portion on the second side, a thumb portion, and at least one finger
7 portion; and

8 a washing material impregnated in at least one of the first and second sides,
9 and released therefrom upon wetting.
